

WIN — arm better than minorminer tie LOSS — minorminer better

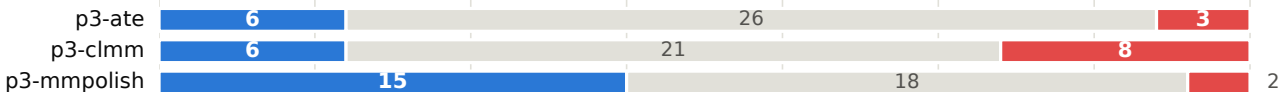

Pegasus P16 — merged verdict

Zephyr Z12

Chimera C16

0 5 10 15 20 25 30 35
graph categories (35 families per architecture)

§4.11 category verdicts over the full-library sweep (~595k rows); P16 merged = guarded re-run merged with the original batch

Residual losses decompose into the measured seed-noise null (sd 1.57 pt per family) + documented boundaries (§4.11)
